**VMS#3** Vilnius Media Seminar  
Vilniaus Medijų Seminaras  
Віленскі Медыя Сёмінар

# Media activism as new dimension of public spaces

The goal of **VMS#3** is to rethink and discuss media activism in the context of public space and sphere. Young philosophers, sociologists, architects, artists and activists are going to compare two case studies from Lithuania and Belarus. We are going to analyze issues from politics of space to the politics of aesthetics in this seminar.
